

DPF-0401

Windows Driver Software for USB Expansion I/O Products

概要

The DPF-0401 controls our USB expansion I/O products by applications running on Windows. Application software links a provided dynamic link library (DLL) and controls the product through the application programming interface (API).

特長

The DPF-0401 controls power on/off of the USB device.
For each I/O function, refer to the Web page for each software driver.
